

## Travel to Cambridge Biomedical Campus, by Bike

Cambridge has the highest levels of cycling in the country. It's part of the local culture and is often the quickest, most reliable way to get around the City. Cycling is a very popular way to get to Campus with many people cycling from across the City, nearby villages or the Park and Ride sites; some cycle 10 miles or more. Cycling to work is a good way to get some exercise and to get refreshed.

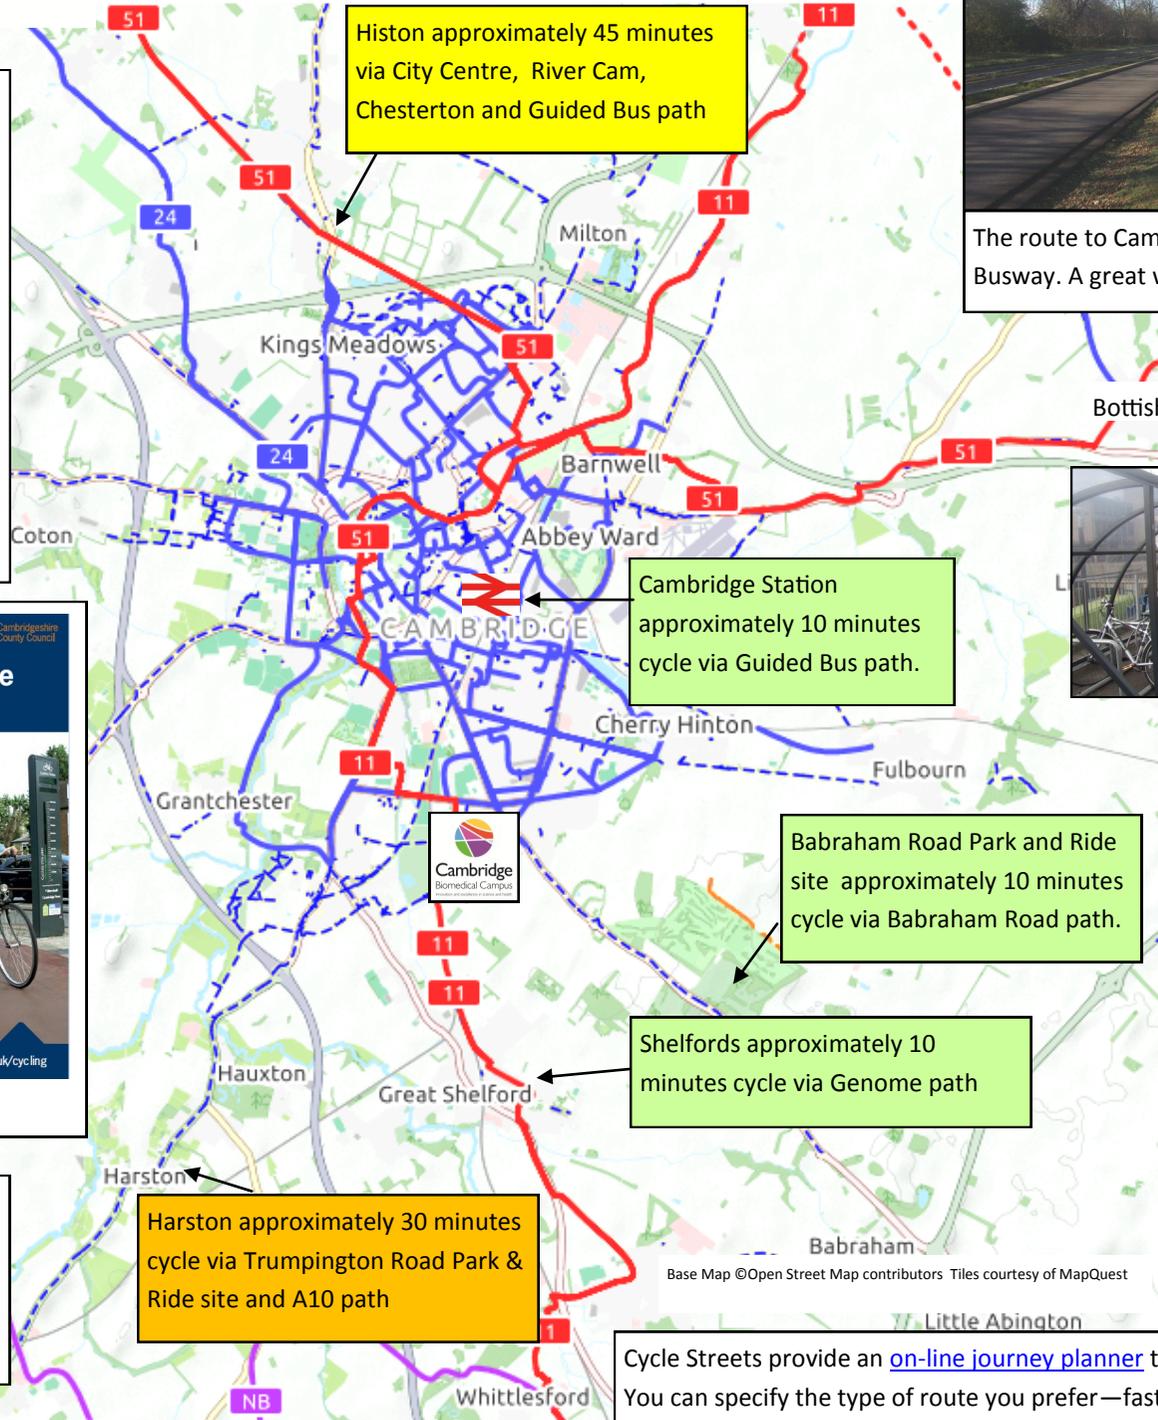

Cycling is also a good way to get from Cambridge Station to Campus, but taking a bike on the train to and from Cambridge can be difficult. If you intend being a regular cyclist in Cambridge a good option is to buy or hire a bike to keep in Cambridge. There is an excellent multi-storey free cycle park to the right of the station exit, with space for 3,000 bikes.

The plan shows cycle routes including numbered National Cycle Routes. Route 11 passes through the Campus. Free cycle maps are available on Campus and from the City Council and on-line from the [County Council website](http://www.cambridgeshire.gov.uk/cycling).

There are attractive off-road routes direct into Campus from Trumpington area, the Shelfords and the railway station and the new route along Hills Road is expected to be one of the best such facilities in the country.

OWL Bikes provide a bike maintenance facility on Richard Howe Way on site. It is important to keep your bike in good condition. To book your bike in or check times call 01223 839 580 or pop along and see them on site .

Histon approximately 45 minutes via City Centre, River Cam, Chesterton and Guided Bus path

Cambridge Station approximately 10 minutes cycle via Guided Bus path.

Babraham Road Park and Ride site approximately 10 minutes cycle via Babraham Road path.

Shelfords approximately 10 minutes cycle via Genome path

Harston approximately 30 minutes cycle via Trumpington Road Park & Ride site and A10 path

The route to Campus—besides the Guided Busway. A great way to start the day.

Cycle Parking is in high demand on Campus, but you should be able to find a spot in a secure compound (as above) or open to the general public (as below). Always lock your bike well.

Cycle Streets provide an [on-line journey planner](#) to help you plan your route. You can specify the type of route you prefer—fastest, balanced or quietest .
