

Travel to Cambridge Biomedical Campus using Bus

For City Centre Connections see this [information sheet](#)

Buses run between the Campus and the rest of Cambridge and the wider area. Bus stops and services are shown on this plan, with links to timetables. Most buses arrive and depart from the Addenbrookes Bus Station, by the Hills Road entrance. However note that the Busway services do not call at the Bus Station and Busway prices are different to Park & Ride prices. There are a lot of ticket options and you can get some good deals - see [Ticket Types](#)

- S1** Citi 1 from Campus
- S2** Citi 2 from Campus
- Madingley Road Park & Ride**

Travel Choices

There are a number of different bus services and tickets available for travelling to and from the Campus. Changing bus in the City Centre is not complicated, but you should think about which services you want to use and where on the Campus your journey is starting and finishing before choosing your ticket and service.

- Choosing your service**
- Rosie, Addenbrookes Treatment Centre (ATC) and that part of the Campus** use Dame Mary Archer Way bus stops and either Citi 7 local bus service or Guided Busway A. (Walk through Rosie Hospital to ATC).
 - Outpatients and Hospital Main Reception and that part of the Campus** use Addenbrooke's Bus Station for Green Park & Ride service, Citi 1, Citi 2 or Citi 7 local bus services or use Outpatients Bus Stop on Main Drive for Guided Busway A.
 - Long Road Sixth Form College, MRC/ LMB and that part of the Campus** use Puddicombe Way or Robinson Way bus stops and Guided Busway A or Citi 7.
 - Milton Park & Ride site** use one of the above buses and interchange in the City Centre with Grey Park & Ride service (Stop D1).

Tickets For Park & Ride services a city Park & Ride day ticket can be used all day on any City Park & Ride buses (not Busway services). For Guided Busway a busway ticket is needed or a Day Rider or Mega Rider ticket is needed. The [best value tickets](#) are for long periods and are cheapest bought on-line.
